

Cross Country Ski Trail Ratings

Excellent	<p>90-100% of area has exceptional snow cover with no local conditions to impair skiing. Full depth Classic Track firmly packed and Combed Skate Lanes.</p>
Very Good	<p>90-100% of area excellent snow cover. Few spots which may impair Skate or Classic Skiing. Firm poling track, and firm comb on most parts of the skating lanes.</p>
Good	<p>90-100% of area ample snow cover. Few spots which may impair formation of fully-molded, full-depth Classic Tracks. Skate Lanes packed, but may have some softer/thin sections.</p>
Fair	<p>90-100% of area adequate snow cover with some icy/rough/thin sections, and sections with some debris (leaves, pine needles, grass, etc.). Skate Lanes may be shallow or soft in places. May not have a Classic Track if snow is too shallow/poor quality.</p>
Poor	<p>50-100% of area is not recommended for skiing. Bare patches, exposed obstacles and extremely icy conditions are likely present.</p>
